

OBV10 | 24-CAMERA OB TRAILER

DOUBLE-EXPANDABLE

The OBV10 is our largest OBV. Extendable on both sides, this multifunctional OBV accommodates as many as 18 workstations and 24 cameras. Particularly suitable for large-scale productions, such as sports events or other live performances.

With at least 6 flexible work positions and space for multiple recorders, EVS and/or GFX machines, this trolley can be customised. Almost all work positions are equipped with an RTS intercom panel and viewing monitors. Thanks to extensive audio facilities, this OBV is also ideal for high-quality music recordings.

OBV10 | 24-CAMERA OB TRAILER

DOUBLE-EXPANDABLE

EQUIPMENT

PRODUCTION AREA

- 1x Sony MVS-7000X 4ME panel and Aux bus panel
- 8x TVLogicPro 42" HD monitors
- 3x Sony LMD-2451W 24" HD monitors

EVS

- Space for 4x EVS (12ch)
- Space for 10x VTR
- 5x Sony LMD-2451W 24" HD monitors

ENGINEERING

- 4x Sony LMD-2451W 24" HD monitors
- 4x Sony LMD-1751W 17" monitors
- 3x Tektronix WFM-5000 waveform monitors
- 1x Monitor for EIC

AUDIO

- 1x Studer Vista 5 audio mixer with 140 inputs, 140 outputs, 3x MADI IO, Dante IO, audio follow video
- Genelec 5.1 surround system
- 2x Sony LMD-2110W high grade monitors
- 2x Sony LMD-1751W 17" monitors
- 1x Videotek audio analyzer

- 1x Tascam CD-200SB
- Ghielmetti patch

COMMUNICATION

- RTS ODIN 96X96
- RTS ROMEO (beltpacks on request)
- 12 Motorola Portofoons
- 4 ch duplex Basestation

RACK ROOM

- Ross Ultrix
 - 160 X160
 - Internal Multiview(9)
 - Embedding / de-Embedding
 - MADI audio I/O (inc. source rate conversion)
 - 16ch frame syncs.
- 1x Sony 4ME vision mixer with 80 inputs, 24 outputs, 2DME, snapshot
